

Conductivity Examination Equipment of Cement Material

Purpose: Conductivity mechanism of the cement material of saturation is solved.

Main specifications:

- (1) Pressure vessel 1MPa Three sets
- (2) Three axes
- (3) Automatic measurement
- (4) Examination object. size $\phi 10 \times 15(\text{cm})$, $15 \times 15(\text{cm})$

Location and Date of Installation:

Civil Engineering Research Laboratory, December 2003
